UNIVERSITY OF SAINT LOUIS

Conversion and extension of an office building into a community service equipment building

Rue de l'Ommegang, 2 à
1000 Bruxelles

The project is located in the heart of Brussels, on rue de l'Ommegang 2, at the corner with the rue du Marais. Within a predominantly business district, it takes place close to densely populated venues, such as the City 2, the galleries of Passage 44 or the rue Neuve shopping street.

The project includes the extension of Saint-Louis University.

The University will host various functions such as a 650-seat auditorium (triplex), a multi-purpose hall (duplex) for 1.017people, a duplex library, various offices and classrooms.

The auditorium and the coupled multi-purpose hall are tools that are rarely gathered together within the same building and thus constitute a real added value for the University.
